SPACE

LISTEN TO YOUR EMPLOYEES.

01

44% of NHS staff have felt unwell due to work related stress

Many people feel like they are still want to work but need more downtime during the day to remain productive

02

At least 18% of work-related incidents are due to fatigue

In the incidence of never-events, fatigue is attributed as one of the main causes

03

88% of surveyed healthcare workers said they had tired lapses throughout the day

With 10% of workers adamant that this had an adverse effect on patient safety

04

Absences due to stress related sickness has cost the NHS an estimated £2.4 billion

Absences due to anxiety, stress, and depression account for approximately 539,300 full time days lost

05

57% of staff have experienced an accident or near miss when travelling home after a night shift due to fatigue

With the understanding that this figure is widely underestimated due to unreported incidents

THE SCIENCE

BEHIND REST SPACES

Naps have proven to reduce cortisol levels therefore reducing the stress response from an individual

Napping reduces the likelihood of heart disease by up to 34% and improves immunity

Naps promote enhanced brain activity, productivity and information processing

Rest Space: a designated sleep pod for staff to rest, recharge and recover

Our aim is to help hospitals take preventative rather than reactive measures towards issues such as stress, burnout and fatigue by investing in a Rest Space

OUR VISION

OUR PRODUCT

- Industry leading infection control methods
- Ventilation and antimicrobial wipe clean surfaces
- Clean, compact design to maximise space in the workplace
- Noise reduction features to promote rest
- Private and peaceful for maximum sensory rest and recovery in staff

Rest Space's best Features

Ventilation Fans

Rest Spaces are fitted with air ventilation for clean air. It is also fitted with quiet ventilation fans for air circulation.

Sound Reduction Technology

minimal outside noise with sound-absorbing and blocking layers

Relaxing and Soothing

Rest Spaces contain a variety of soothing lights and a wipe clean mattress to help you rest

FINANCIAL INCENTIVES

TO STAFF

Improve patient care

Staff are much less likely to make mistakes when they are able to rest and recharge to remain alert- improving the quality of patient care

Improve staff productivity and output

Reduces level of exhaustion and burnout in staff, especially during long night shifts

Improve staff mental and physical wellbeing

Improves staff morale and work life balance by managing stress levels

FINANCIAL INCENTIVES

TO THE ORGANISATION

Improve patient safety

Reduces the probability of staff negligence due to exhaustion and fatigue- therefore reducing the probability of never events

Improve staff recruitment and retention

Employees can see you are actively investing in their wellbeing and are more likely to stay on in the job- reducing recruitment and hiring costs

Save money

Reduces number of sick days taken by staff therefore lowers costs incurred when finding locum replacements

DON'T JUST TAKE IT FROM US

LEARN ABOUT WHAT USERS AND CUSTOMERS OF REST SPACE HAVE TO SAY ABOUT THE PRODUCT

"The rest space was very convenient and easy to use"

"It has a handy shoe compartment underneath and a shelf inside where you can leave your phone and bag. It locks from the inside securely. The bed is clean, hygienic and comfortable. I very much enjoyed having some down time in the rest space."

"An amazing and rejuvenating experience"

"The rest space team have managed to create a real sanctuary within an office."

"The relief was immeasurable"

"Travelling and working long office hours was tough and I wasn't ready to share my pregnancy; we had waited 6 years! I could comfortably book a nap or two. The relief was immeasurable both physically and psychologically."
